<input type="checkbox"/> Clay Times Magazine	<input type="checkbox"/> Friend's recommendation

Steps to create your own ceramic stamp tool:

1. Using a sharpie marker or similar black pen, draw the design you wish to press into the clay. Note that the black areas of the design will be the mark left in the clay and white areas will be untouched by the stamp. Draw the design as you want it to appear in the final clay body. We have you draw the design at 3", so the final 2" stamp will have clear crisp edges when we size it down to fit.

For online orders, use a computer to create a 3" square and draw your design. You may send art by e-mail in PDF, CDR, AI, or JPG format. Please include all information requested on this order form in an e-mail with the art files.

For best results make all lines as bold as shown to the right, remember all lines will be smaller in the final 2" x 2" stamp tool.

Draw design in the square above.

Minimum white line thickness →  ← Minimum black line thickness

2. Fold this paper along the dotted lines to protect your drawing in the mail.

3. Include a check or money order payable to SOCWELL LLC. Mail both to the address at top of order form. Taxes and return shipping are included in the cost. We try to ship the finished stamp within 10 days of receipt of this order form.

Check box for online payment option?
(if you prefer to received a PayPal invoice by e-mail)

Custom 2" x 2" size stamp - \$75 = \$ _____

____ additional copies - \$60 each = \$ _____

(if ordered at the same time as first custom stamp)

Order Total = \$ _____
